KUDOS!

-Kudos to **Emily (PGY-2)** for absolutely rocking a week of nights. She is thorough, organized, efficient- and I fully trust her. She is also so good with patients- on her own she went down to CT with a patient to help keep him calm, and she even walked a delirious patient around the unit to help calm her down and re-orient her. And can't forget the independent 19 min DTN time! - Jyoti (PGY-4)

-Kudos to **Dr. Jamshidi (path attending), Drs. Melissa Bautisa and Heather Smith (neuropath fellows) and Dr. Anthony Gjzeli (path resident)** for making my time on path educational and going out of their way to teach me and make me feel included! -Jyoti (PGY-4)

-Kudos to **Allen (PGY-4) and Emmanuel (PGY-2)** for handling very complex discharges on the stroke service with such a great attitude! -Dr. Curran

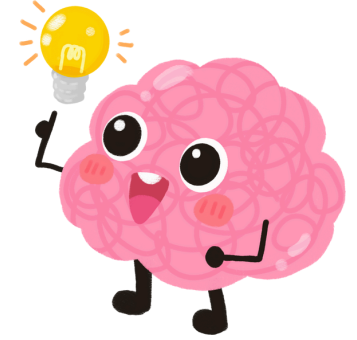

-Kudos to **Allen (PGY-4)** for helping out the general service with 2 LP's when we were super busy! -Meghana (PGY-3)

-Kudos to **Naomi (PGY-3)** for stepping up to help teach the M3 classes when I got called in for backup! -Karl (PGY-4)

-Kudos to **Emily (PGY-2)** for her great notes that continue to make my day easier even when I'm off of my neuro rotation and on psych consults! -Ali (psych prelim)

-Kudos to **Jamie (PGY-3)** for taking a late consult for the nights team on her Saturday call! -Meghana (PGY-3)
